

The Supreme Citizens Charter

Press Overview | October 2026

ABOUT THE INITIATIVE

The Supreme Citizens Charter is a civic and educational framework centered on constitutional citizenship, equal civic dignity, public stewardship, accountable government, and peaceful civic participation. It invites people across political, ideological, cultural, and regional differences to learn about their constitutional system and take an active role in civic life.

THE CENTRAL IDEA

We the People. Constitutional Citizenship. Public Stewardship.
The Supreme Citizens identity expresses the collective popular sovereignty of the people within the constitutional system. It calls citizens to learn, participate, question, serve, and help preserve the Republic. No individual is placed above the Constitution or the law.
